

Chairman Michael K. Powell
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Mr. Powell.

I am Increasingly concerned about the imminent impact on thousands of employees from irrationally low UNE-P rates. Revenue continues to decline from the slowing economy. Unbalanced regulations regarding UNE-P wholesale pricing is placing an unfair burden on SBC. No company can stay in business selling things for half of what it costs them. Eventually, the company can no longer invest money for improvements. We ask that competitors invest in the networks that serve our communities. If you look into how much tax is paid by these companies, how many tax payers they employ, and how much they have invested into the betterment of the state or countries infrastructure you will understand the deeper effect the unfair pricing will have. SBC recently announced headcount reductions of 11,000 people. I am asking you to please **look** at the facts and make fair changes to SBC's wholesale pricing. Keep Americans working. Artificially low wholesale prices left unchecked will eventually hurt customers. If SBC is unable to invest to maintain the network, everyone served by that network will suffer.

Sincerely,

Esther Weinberger
ESTHER WEINBERGER

*I am praying for you so that you will be
guided to make the right decisions.*

Dear Mr. Powell,

I ask your support for the continued availability of the "UNE-Platform."

My company, [company name], offers local telephone service in [geographic service territories]. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" – the UNE-Platform – to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort at the Federal Communications Commission or at state agencies to limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.

Sincerely,
